A. CONTRIBUTORS AND CONTENT

Turlough (the Doctor's new companion-to-be) is recruited by the Black Guardian to destroy the Doctor. By travelling in a transmats capsule from Earth he meets The Doctor, Tegan and Nyssa on board a ship that is in perpetual orbit.

A signal from Earth is preventing the Tardis from leaving the ship, so The Doctor and Turlough transmats, via the capsule, to Earth. The Doctor locates the box that is sending the signal and tries to break its seal. The Black Guardian orders Turlough to kill the Doctor and unseen he picks up a large stone, raising it above his head ready to bring down on the Doctor.

A. CONTRIBUTORS AND CONTENT

Just as Turlough is about to strike the Doctor, the bronze box explodes and he is thrown off balance. The Tardis, instead of landing in 1983 with the Doctor, materialises in the same place but in 1977.

Nyssa and Tegan while exploring the hill see the capsule materialise. Inside they find the charred body of Mawdryn whom they mistake for The Doctor. Tegan goes to find help and returns with Brigadier Lethbridge Stewart who is an old friend of the Doctor. Tegan realises they have landed in the wrong time zone. The girls are frightened by Mawdryn's continually changing features.

Meanwhile, Turlough's friend Ibbotson and teacher (the same Brigadier Lethbridge Stewart only six years older) meet the Doctor. The Brigadier is suffering from loss of memory and doesn't recognise the Doctor. The Doctor thinks this might be related to his losing his Tardis. The Doctor triggers off a reaction that brings part of the Brigadier's memory back.

A. CONTRIBUTORS AND CONTENT

Mawdryn convinces The Brigadier, Tegan and Nyssa that they must return to the ship. When they arrive he leaves the Tardis alone, but the Brigadier follows - to keep an eye on him.

Turlough, The Brigadier and The Doctor return to the ship with the aid of the homing device (given to the Brigadier by Tegan six years previously) after Turlough blows up the transmitter. The girls meet up with the Doctor again and meet the Mutants in the laboratory. The only way the Doctor can end the Mutants endless mutation (caused by trying to turn themselves into time lords) is to give them his remaining regenerations.

A. CONTRIBUTORS AND CONTENT

The Doctor decides to give up his remaining regenerations. While the Mutants, The Doctor and girls attach themselves to the laboratory apparatus, Mawdryn shows Brigadier (2) which controls to use.

Turlough is unable to stop Brigadier (1) entering the lab. When the Brigadier sees The Doctor and girls he thinks they are in terrible danger and tries to stop Brigadier (2) from activating the machinery. The two Brigadiers touch and cause an enormous discharge of energy which leaves them unconscious. The energy force has enabled the mutants to die. The dazed Brigadiers are kept apart and taken to the Tardis. They are then returned to Earth in their respective time zones.
